PHILIP MORRIS U. S. A.

INTER-OFFICE CORRESPONDENCE

RICHMOND, VIRGINIA

To: Mr. A. I. Palmer

Date: February 29, 1984

From: Susan A. Hutcheson

Subject: D-205 -- Nicotine Analogs

R&D management has reviewed the noted disclosure and recommends pursuing patent coverage. It might be appropriate to have a patentability search conducted outside since our inhouse patent data base has little information related to pharmaceutical products.

I plan to follow up with Ms. Southwick to see if a CAS substructure search has been conducted on the intermediates and/or final products. The results will be forwarded to you for the file if available.
